

SOCIAL TARIFFS

citizens
advice

North
Hertfordshire

Social Tariffs offer cheaper mobile phone and broadband packages.

If you receive Universal Credit (or some other benefits) you may be able to reduce your broadband or mobile phone bill by applying for a social tariff.

Social tariffs for mobile phones can be as little as £10 per month.

Text INFO to 85075 to see if your current contract has ended

Broadband prices are typically between £15-25 per month.

It is usually free to change to a social tariff with your existing provider.
